UR-SAFETY

Safety first!

A Complete Safety Suite Solution

Safety Training & Meeting Solution

Instructor-led, supervisor-led, and self-paced training options. Easily track training progress and ensure that every employee receives the necessary education

Safety Good Catch Solution

Report safety issues anonymously or leave their email for updates on issue resolution. Gain full visibility into incidents reported and their status, enabling prompt action and resolution

Safety Incident Reporting

Streamline your incident reporting process. Tie incidents to specific jobs, locations, and users, facilitating thorough analysis and targeted improvements. The centralized dashboard provides a comprehensive overview, allowing you to efficiently manage incidents from opening to closure.

JSA/JHA Management

A powerful dashboard to manage incidents, analyze risks, and track progress. With easy-to-use features, you can ensure effective risk mitigation and seamless documentation

Safety Driver Solution

Conduct inspections, report incidents, and promote safe driving practices. From vehicle maintenance to driver behavior monitoring, our solution helps mitigate risks and protect your drivers.

As an employer, it's your responsibility to keep your employees safe. Accidents in the workplace will cost you money, resources, and possibly, your ability to operate.
